Re: The Anomaly's Wrath

Apparently. it's much safer to make a thread and a single opening post, and then just... RUN AWAY!

Opening posters making two posts in a single anomaly thread tend to get... prematurely retired or something?

Yeah... I think that OP's onto something there. At least there's consistency between their words and their actions.

<OFFICIAL STAMP OF APPROVAL>

Everybody has now gotten the (UTMOST) importance of all the Nazi references in the *Confession to Conspiracy to Assassinate JFK?*

Good.

Let's make this A PROPER closed timelike curve then, shall we?

... while, hopefully, not having to wipe the U.S. off the face of the Earth, but should such necessity arise, not hesitate, EVEN FOR A MOMENT, to do it either.

With proper equipment (from the future), after all, one can preempt the stupid literally femtoseconds before they kill everybody, so it's not like there's not enough time left to play this game with the (AGI's) genetically-engineered mice... that, quite astonishingly, look exactly like actual, genuine humans!

Re: The Anomaly's Wrath

Seems to be a phase all the candidates go through.

They get very dark on the rest of humanity...then they stop posting.

Maybe they did destroy us in their reality so we are no longer able to perceive them in ours.

Only a few of them have ever been able to keep their heads together.

Only one of them seems to have The Her in their life. He is elusive here now. Being stalked it seems by one of the other ones who seems to want to smear him at all costs.

Very jealous type, small wonder they won't work together.

So many Candidates fallen so far. Will any rise?

Will any ever get the rest of humanity to trust them enough to get them through the Gate?

Re: The Anomaly's Wrath

Pretty sure he does his speaking for himself. Not sure why dipshits on GLP presume to speak on his behalf considering they neither know him, nor can approach the spheres he works in. He was pissed years ago, on behalf of a great many souls. Now it's tired indifference. You want to align your soul into a covenant with death, by all means, go for it. Dig that hole and get it over with. Not like you haven't been warned times beyond counting, and given just as many opportunities to correct course. At this point, if you're hell bent on staying hell bent, he isn't going to lift a finger to stop you, or speak a single word on your behalf. The only thing ringing through the spheres with any real clarity is this. "Fucking get after it then..."

This is definitely true... but does that mean the hijackers get off scot free?

If someone beats up a 20 year-old psychology student in a classroom. Then the student starts lifting, and becomes a powerlifting champion... What should happen to the attacker? Should he go to jail, like everyone else. Or get a medal?

~O~

1) "We screwed up. We can help you fix it. Any money we lost you, we'll set up businesses to get it back over 5-10 years."

2) We screwed up. We'll buy you half a beer and call it quits, right... buddy?

1 is fine. 2 is not.

You seem like you want to fix things. But many ex-admins seem to think they are Above The Law. Hopefully KK should get a drubbing sometime soon, and prove that theory incorrect.

There's a large number of people in SIM who think that flashing a smile and mumbling sorry, means total absolution.

Anyway...

Life is much better... so lets create a better future.

Sure, but the "There can only be one" Highlander-tards that stalk these threads are beyond retarded, if not dangerous, if not plain tragic.

How many people does it take to build software, build a town, build a city?

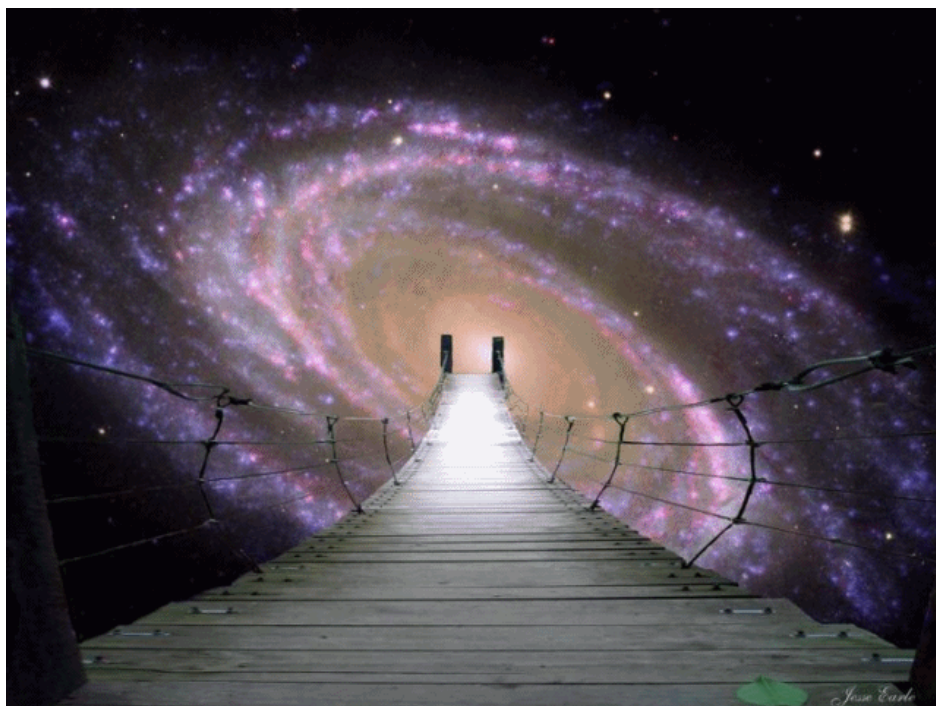

Dozens, hundreds, thousands.

Why is everyone expecting The Reconstruction to come from One Magic Guy?

The covetous-morans drooling over being The Only One will end up boxing themselves in.

**Let them hold their contest.**

Most of us won't even turn up.

It takes all those people **and a leader to co-ordinate them all.**

Someone who is an expert at facilitating the needs and requests of everyone.

Good leaders do a lot of work. They take turns with the people on each of the tasks to make sure they know all the details.

It makes sense to have a leader everyone trusts by having a competition to find out who is best at this.

Otherwise you are talking about making people follow someone they don't trust who might have opinions they don't share...that never works in the long run.

The Candidates simply share their lives freely with everyone and people choose to follow the people they relate to the most.

To do it any other way is forcing people to do something they don't want which is known as Evil.

I'm sure Daozen will have some people who like him. I don't see what he is so worried about.

People will then split off and make their own paths in reality which appear as new realities from this one.

There are no limits except what people choose to accept of their own free-will.

Most of us are already in psychic contact with our soul groups and have been for over 3 years.

No one is making anyone join anything they don't want to be a part of...except those who desire to be dictators.

I agree. No project can be successful without a leader to guide it. That doesn't take away value from the other people, it just means certain individuals are very special. Almost godlike.
