Re: American Women are promiscuous and nihilistic, because American men don't build useful things any more...

Most women are promiscuous and nihilistic because it is their nature, Captain Save a Hoe.

Quoting: **Anonymous Coward 84296555**

This is definitely sometimes true.

But why have those characteristics reached epic proportions in some countries, in 2022?

I think its cos not enough men are stepping up and doing something useful for their local area. Instead they just predate.

JMO.

Shrug.

Re: American Women are promiscuous and nihilistic, because American men don't build useful things any more...

Inflation doesn't apply to gold and silver coins which are freely available from the mint. US notes are also rumored to be hoarded by the USG.

Quoting: **Anonymous Coward 83828470**

Are gold or silver coins related to the USC411 business?

Is the arbitrage between the precious metals and lawful money, somehow?

Some method where you cash them for more than you bought them for?

Quoting: **Daozen**

Of course, daozen.

ANY TIME one can receive "goods and services" for fiat which has no underlying value, there is an asymmetrical relationship to the transaction. You claim to have some knowledge of "energy extractors"..thieves, if you will.

The same EXACT DYNAMIC as you accuse others of exploiting. You are only too willing to join the fraud...you lack only the requisite knowledge.

You can well imagine how such blatant STUPIDITY, or perhaps HYPOCRITICAL behavior, might make others involuntarily LAUGH OUT LOUD.

In asia, the idea of FACE is understood at a young age. One can be a buffoon, but following that act with one of a LEADER worthy of immense power is difficult.

I previously asked you a few select questions which you did little to address.

Are you serious in your inquiries, or is this just another bit of yours.

Understand that OTHERS have assumed vast powers and authority via serious inquiry, study and sacrifice for a greater good. It is worthy of a life's work...not some snippet between your mental flights of fancy.

White women have been brainwashed to spread the legs for the foreigners at the gate via pervasive jay propaganda from childhood on up. White men are just astounded they'd listen to the enemy instead of their own!

I missed your questions because of New Year. Also, please understand that any post repeatedly calling me ALL CAPS STUPID will get deprioritized. Don't be surprised if I don't answer it.

Am I worthy of being a leader? As we are all going our separate ways, does this question even apply to you? I will go with my group, and separate from those who don't wish to listen to me. Free will is respected at all times.

Regarding 'sacrifice', and the greater good... why should I make a huge effort for people who don't lift a finger for me?

~O~

Questions: is there any way I can use silver and gold coins, and the USC411 mechanism, in a manner that you think is Honest and Fair?

Im listening.

All methods are of interest.

I understand I learn slow, and you must be frustrated. Lord R.

Is there any way you can assist directly with some of the legal issues, and I can give you a cut of some funds?

Or can you put me in touch with a legal professional in the UK who can assist?

How can I find lawyer types who know about this Business? they must have some identifying language in their adverts.

The legal system is essentially the gatekeepers to the banking system, which of course controls the government through fiscal policy.

Give me control of a nations money supply....etc.

There are no legal issues...other than the ones you have created in your reality.

No person from the legal industry will assist you.

No legal institution will assist you

No political representative will assist you.

Even your parents willingly see you taken into bondage and do nothing.

Your parents, daozen...

You see your "redemption", so to speak, to come from others.

This is not possible, simply because "others" fall into two distinct classes...those who assist the exploitation and those so exploited.

Which group do you call upon?

This is what I mean when I refer to your native STUPIDITY.

You seek "redemption" from those who exploit you, or directly benefit from your exploitation.

In what reality is this logical?

You are in asia, have you read the art of war?

Have you attempted to understand eastern thinking?

Do you see how easily that ethnic group is also exploited?

Do you relish being the token white male in a sea of small, chimp-like worker drones?

Yes, I've read the art of war and studied the I Ching. Yes, they're being exploited... mainly with the fiat scam.

Your question makes no sense.

Can you not obtain "gold and silver coin" already with your fiat? What is the difference if the "gold and silver coin" is obtained from the Central Bank, the Treasury or the local Viet jewelry store. Is it not a redemption?

One can visit the US TREASURY website and obtain gold and silver denominated coins in exchange for fiat. Can one not use those "gold and silver coins" in trade?

Answer this one question then, daozen...

What is the difference between legal tender and lawful money?

What have you researched BESIDES 12USC411. It is amply clear that you don't understand that simple code either.

I suggest you take your time and answer with something resembling a thoughtful response. There is no time, and thus, no rush.

Re: American Women are promiscuous and nihilistic, because American men don't build useful things any more...

...

The problem is that the state takes money out of your check and raises property and all other taxes to pay for these bitches, while the media portrays them as necessary pillars of society while portraying men as loser bum criminals, and these are men with jobs that fund these disrespectful women with their taxes.

You pay as a man whether you want to or not.

Quoting: **Anonymous Coward 84987768**

Here's what I fail to understand.

You APPLY for a social security number
You APPLY for a bank account
You apply for a voting card
You apply for a drivers license.

Why?

They come with rules and conditions, but why opt-in to the system?

Just say YO and don't accept the "deal"

Problem solved!

Quoting: **Anonymous Coward 83933023**

If you don't have those things then they'll make your life so miserable that you won't want to be here anymore. You'll have a restricted lifestyle and may even end up homeless. And there's no getting around property taxes anyway. Inflation too, if money is printed to pay for these white women with entitlement issues then prices get higher.

There has to be some better solution where they get cut off from their funding.

Quoting: **Anonymous Coward 84987768**

Who is "they"?

How "miserable"?

"restricted" lifestyle? How so?

You "opt-in" to property taxes. Did you read your mortgage?

Inflation doesn't apply to gold and silver coins which are freely available from the mint. US notes are also rumored to be hoarded by the USG.

I can't decide if you are a loser, a shill or just stupid...so why choose? Let's go with all three.

Quoting: **Anonymous Coward 83828470**

- I have my skills, I also have my weakspots. That's what teamwork is about. You don't get a plumber designing websites. You don't get a CSS designer fixing the drains.

- I had a dream, woke up, and decided to draft this. Still being drafted. Please not that it does NOT yet answer your questions.

[Thread: How could a New Financial Network be Rapidly Deployed and Scaled?](#)

... the idea is that it works with fiat first, then lawful money and crypto later.

- Note also that you are in no position to gatekeep, or render a final, yes/no judgement on me. It is well known that there are many groups that think I am a dumb-dumb. There are many others that wish to employ me, once the quarantine ends. So don't think, or pretend, that you have the final say over my future.

Once someone breaks the quarantine in the physical world, the portcullis may slam shut.

~O

- Legal tender appears to be fiat/fedres notes. Infinitely printed, accepted everywhere, backed by nothing but belief. Lawful money appears to be (I think) directly tied to gold and precious metals. Lawful money has a restricted, or stable supply (little to none is printed). It is only available if you make a special request, using USC411, for example.

- I have some notes on USC411 and other subjects. I took them in the summer. I noted some other codes, I'll have to look them up.

~O~

You have said that I appear to only be making a lukewarm effort on USC411 (or words to that effect). The reason is simple. Is there any legal issues here, maybe someone from behind-the-scenes can issue an order for the banks/post offices to not deal with me with regard to USC411 and other matters.

tl;dr, If I pour 100 hours of research into a fraudulent game, I may be wasting my time. Have the rules been broken around me? We hear yes. So how can I trust they'll be followed in the future.

- From my perspective, it's easier to go and build the software I want, then go

raise money elsewhere.

- If I finally manage to figure out the banking BS, I can put it through the system I build, seamlessly, later.

Im sorry if that's frustrating for you. I just need to hedge my bets, and allocate my time wisely.

Best Wishes,
