Within three minutes, since the making of this thread..

Balance and Dynamic Balance.

Don't worry about thanking me, no one else does either.

Order is not how people think either because they are stuck in first Order thinking which deprives them of a whole lot of mental real-estate.

Combining Order and Chaos makes logical constructs which if make correctly stand without further addition of conscious energy.

Static balances are dead systems, they just perform services consistently where dynamic systems emulate "Life-like" systems or chaos enabled systems that are capable of being immersed in chaos space and keeping integrity.

Many of those systems use chaos itself to provide the energy and dynamics.

The third Door is the narrow exit from the Matrix.  
You may come to the exit via the "Middle Path".  
Have a look on the tables with the address codes (for Males and Females) to the mansion of Kingdom of Heaven for earthlings which is inside the Garden of Eden:

Hmmmm.

I studied the I Ching for a long time in my early twenties. I used it for spiritual guidance. It was, 98% of the time, unerringly accurate.

I was always sure there were many deeper secrets hidden within it.

How can we use Hexagrams to access the Kingdom of Heaven? I should go back to meditating with them. They were always the most consistent and balanced energies I have ever come across.
