very complex situation but it does appear The Anomaly is back but in some ways the dark side still "won".

he is alive and well but has wasted a lot of time the last few years for stuff that someone else should have handled.

Situation is changing every second.

It'll be ok.

It is not quite "wasted time". Think of it as accruing skill sets.

The more they dump on you, the more you learn, and the less bargaining power they have.

There is a broad spectrum of opinions on how to succeed, even among the sincere.

Remember, there are those, even on Our Team, who think that building The Software is of utmost importance. Then there are those that think it's utterly irrelevant.

That's how abstract this war is.

Some of them in Mission Control have an attitude like the ones in Twelve Monkeys, or Darling in Blackadder.

Conceited pen pushers who try and treat you like a squaddie on his first day at training.

Some of them secretly want us dead, BTW. There are those that would do

anything to go round the Truman Loop again.

Very complex, but the key is to Love, stick to the straight and narrow, and Solve The Puzzles.
