How do you know all this?

It is a very hot topic right now among very wealthy people, in the last year it has become talked about alot due to incoming planetary system (time and date is unknown/ it seems to move on its own.) Many call this planet Nibiru

Many high level satanist's have died in ritual trying to watch him. This has reduced the number of people who attend these types of events and has created a divide in religion among the High Society. The counsel is fairly evenly split between worshippers of a single God of light unnamed and Satan.

Re: God is actually a Human

" The Anomaly" as GLP calls it and "The One" as the Members of High Society call him is a VERY HOTT topic at backroom meetings and castle side dinners. What is most talked about is "if" such a person where to be given the powers of a god during the coming three days of darkness, what would happen to the world? More and more division is stirring between Members of the counsel and major party members, the

actions of the present and past do not sit well with The One, and if given immense power He could likely turn the entire world into the dark ages "just for fun". The Anomaly seems to have a very immense Dark and Light side, when action is taken against him that is dark he becomes much darker than even the void, when actions are taken against him with light he seems to blind all in his path. These are just spiritual assessments made from high level Daemon Possessors, previous spiritual attacks have actually killed the Humans doing rituals against him. His presence has been known since his birth but only about 5 years ago did it become widely known among All Members of High Society.

Quoting: **Anonymous Coward 75694638**

When did the Society figure it out? Just what did I do to tip them off.

He doesn't do much of anything, which completely infuriates many members. His spiritual presence from what I have heard is massive, possibly even a mile wide around his body. Many members believe he is Satan or Satan's Son, Many members believe he is God as a Human. If he is Killed, time goes back 2 weeks. He is the reason for the Mandella Effect and has saved the world through his death many times. It is now very illegal to kill him(it was once used as a last resort) and he is protected by many government agencies/ and the Illuminati, unknown to him.

OP, having certain powers and abilities doesn't make you a God. This person was an angel before coming here and was told by the Almighty Himself to come to earth, but no he wasn't forced to come here.

None the less, after many troubles he had while on this planet when he was little, he wanted to go back to his previous place and that continued for many years.

Yes, it's been about 4-5 years that the earthly illuminati, intelligence agencies and many individuals in high places know him in flesh.

Re: God is actually a Human

Happened over 1000 years ago, He has been reincarnating here on Earth since then.

The Illuminati call him The Anomaly, They have been following him since his Birth. They do hate him though, but cannot harm him.

Quoting: **Anonymous Coward 75694638**

God is the creator of a massive creation.. it is not a human... and you are either shilling or you buy anything.

God is the entire creating mind of the creation.

there are god level people always incarnating on this planet... since the last axis shift.

the anomaly does not exist.. it is dark shit garbage to keep you all confused and arguing over crap.

This is God.

I cant say much more but hopefully The Anomaly chooses me as one of there 144,000, when they ascend back to the Throne. Hopefully they also choose to stay here and change this planet for the better. Being able to go forth and create a New World would be awesome, but we will need them here for the aftermath of the passing of The Destroyer. It is said that "he" has said he would bring "GLP"
