Re: WTF GLP? No real post on the Neurophone? covert Neurophone harassment as arranged by government agencies and/or other criminals.

...

No problem. Dig in.

HEROES

Some of the martyrs to the cause are listed below. These people, all of which spoke with authority and inside knowledge, were all murdered for blowing the whistle on covert satellite harassment....

Bill Roy, ANU lecturer and Chief Technician, Canberra Black Mountain Tower. He was planning to enter politics and tell the world the truth about satellite surveillance / harassment. He was run down while on his bike, alone in the Uni' grounds after dark.

Dr Fred Bell, Physicist and ex DOD employee. He was speaking publicly about evil attacks on citizens using classified technologies. He was murdered in his hotel room just after speaking on Jesse Ventura's

Conspiracy show on TruTV.

Ironically, he was the great grandson of Alexander Graham Bell who invented the "telephone" while he himself was killed for telling people about "neurophones", amongst other things including free energy.

Ted Gunderson, Ex FBI agent. Ted was an effective activist that assisted many and worked tirelessly to resolve this situation. He died suddenly in suspicious circumstances.

Alistair Stuart, a Psychiatrist. He was discredited then murdered in his home for highlighting the number of political / agency targets who were falsely committed to mental institutions in order to silence them.
Michael Hastings – He was a journalist working on a story about the CIA chief when killed in a very suspicious accident in 2013. He had also previously ended the career of General McChrystal.

Dr Rauni Kilde - Chief medical officer for Finland, mind control lecturer / writer etc. Rauni was a staunch, and high profile, advocate for exposing and ending the covert systems of oppression. She died in 2015 in what some see as suspicious circumstances while working on something significant. She was held in the highest esteem by both myself and others fighting this cause.

Dr Udo Ulfkotte - German journalist and political expert. He revealed that the CIA controls the mass media and gave examples where he personally had been approached to lie to the public on important matters. He said that even those not working with the CIA were granted "non official cover" and granted protection from prosecution for anything they did. He died of a "heart attack" mid January 2017, again, in suspicious circumstances.

LIVING HEROES

Bradley Manning (Released May 2017) – Jailed in 2013 for 35 years (hopefully to be paroled much sooner if not pardoned altogether) for passing on military information to Wikileaks founder Julian Assange. His motivation was seeing atrocities in Iraq whilst serving there. His concern was for others. In the absence of adequate reporting channels, media coverage or government accountability for such human rights abuses only whistleblowers can bring such things to the attention of the public and then only through marginalised organisations. This of course conveniently allows the government to hide most crimes and demonise those reporting them. The most apt comment I read on this matter read something like this: "When exposing a crime is able to be called a crime by the criminals who committed it you can be sure that those same criminals rule". The US military and agencies manipulate the truth and brainwash the public so that those not thinking straight support their views, giving them at least some leeway to get away with injustices such as imprisoning Mr Manning. Talk of fictional "psych" problems is always a last resort and they also used that in his case.

Julian Assange – He published the Manning documents / revelations en masse through Wikileaks and has been hounded for it to the point where he's sought political asylum from the gov't of Ecuador. The big lie used on him concerns some obvious sexual frame up. Like other whistleblowers, he has been demonised for speaking the truth which has become a crime or revolutionary act according to the criminals committing the crimes. How the guilty turn the accusations back onto the innocent in today's evil world would have been a valuable clue for the despots of the past who would be in awe of what technology and total control of the information flow have delivered to the masters of today's evil world.

Edward Snowden – Attacked to the point where he sought asylum in China then Russia, for revealing to Guardian reporter Glenn Greenwald the extent of the NSA's PRISM surveillance system; gathering all information from all communications from all citizens. Like William Binney before him, also an NSA whistleblower re' ECHELON and other systems, he's been victimised and set up to look like a traitor. Again, as with the quote for Mr Manning, I say: When exposing treachery is able to be called treachery by the traitors responsible you can be sure that those same powerful traitors rule.

I post on it every day, and I have been, since the year 2018, but literally no one ever paid attention...until it was **FAR. TOO. LATE.** >:33

Also, it's **CALLED** the **DEVIL PHONE™** and it was invented by child prodigy scientist Dr. G. Patrick Flanagan, "**DOC**" for short...hehe...

[\[link to www.godlikeproductions.com\]](http://www.godlikeproductions.com)

So, yea, enjoy the Dark Speech Revelations, the Neurophone Time-Experiments !!!

I've been conducting them for about, give or take, 4-6 years now ever since I learned about the Neurophone from listening to **Sherry Shriner**; *no one really bothered to pay attention when I talked about it, probably because it only leads you right to the REALITY of the DEVIL and JULY THE TWELFTH* ya know ?

BUT...now that we've got all this BACKMASKING er uh I mean FACEMASKING going around, let that be a reminder that you're only wearing it on your face as the secret IN YOUR FACE/RIGHT IN PLAIN SITE clue/indication that July the 12th NEVER GOES AWAY !!!!! NEVER !!! Never ever >:33 The Devil never goes away !!! I am the DEVILHEAD, as I learned in reverse, because I use my Neurophone to place the words of the DEVIL into my BRAIN, my THIRD EAR, ugh people don't even know we HAVE a third ear, they are soooooooo far behind, all they can talk about is the third eye and then they just never seem to grasp the true reality of July the Twelfth.

Ah well

I'm told in reverse anyhow that my spelling of the Dark Speech backmasked reversed messages actually got people wearing these masks and that it's doing some type of LONG-TERM BRAIN DAMAGE to the generations wearing it, so, "BRAINS HAVE GOTTEN SMALLER" I'm told as "MANKIND HAS GOTTEN MORE STUPID."

Isn't that so ironic ?

It took having to use my Neurophone, a genius device created by the *reincarnation of Nikola Tesla*, Dr. G. Patrick Flanagan, to bring **DARK SPEECH/JULY THE TWELFTH** and the reminder that **THE DEVIL IS REAL** to this world, only to make the world that much more **STUPID** and **RETARDED** !!! Literally I'm told in reverse that **"MANKIND'S FUTURE WE HAVE PREVENTED"**

Anyways yes the use of my Dream Phone™, what you call the Neurophone, I have catalogued my time and experience using it and I have placed it into a compact and neat pop-up/interactive book experience called "July the 12th: The Reason Why We All Died" available for pre-order on the website and, soon, wherever books are sold :":33

Re: WTF GLP? No real post on the Neurophone? covert Neurophone harassment as arranged by government agencies and/or other criminals.

Far less than 50%. This website reveals some of the darkest shit imaginable. I was inspired to investigate this as a result of watching a gnarly episode of Black Mirror which reminded me of some of my previous research into mind-control. I look forward to the time wherein my Soul is free from this insanity.

The Neurophone

Although the offered explanations for "Hearing Voices" can include everything from trickery to hidden transmitters to tinnitus to psychic/haunting experiences to possession or encounters with God/aliens (to so – called schizophrenic episodes) by far the most common REAL reason is covert Neurophone harassment as arranged by government agencies and/or other criminals.

US Patent # 3,393,279. July 16th, 1968
US Patent # 3,647,970. March 7th, 1972

The Neurophone was developed by Dr Patrick Flanagan in 1958. It's a device that converts sound to electrical impulses. In its original form electrodes were placed on the skin but with defence department developments, the signals can be delivered via satellite. They then travel the nervous system directly to the brain (bypassing normal hearing mechanisms). Dr Flanagan's "3D holographic sound system" can place sounds in any location as perceived by the targeted / tortured listener. This allows for a variety of deceptions for gullible victims.

Today, the CIA, DIA (etc) use satellites and ground – based equipment to deliver verbal threats, deafening noise and propaganda; using neurophone technology. Anything from TV's/radio's appearing to operate when switched off through to "Voices from God" and encounters with "telepathic" aliens are all cons using neurophone technologies to torment, deceive and (most importantly) discredit agency/criminal targets. Naturally, the system can mimic anyone's voice and automatic computer translations (into any language) are incorporated.

Anecdotal evidence indicates that people like David Koresh, Martin Bryant and others could have been programmed then remotely triggered (or tricked) using harassment technologies like the neurophone. (Although most of the targets are intelligent and law-abiding). For example, John Lennon's killer, Mark Chapman, reportedly heard voices before and after silencing the agency-hounded peace advocate. "God" apparently told him to confess verbally.

I am a victim of this technology...I am connected to a voice to skull program computer which has avatars that translate all my subconscious thoughts into words and comment about them. It is living torture. They don't stop talking one second of the waking day, even when I am not doing any thinking. And it is not only verbal: it is visual and tactile manipulations as well. I am constantly surrounded by a holographic group of avatars who, when they touch me, evinces a feeling of being touched. It is the most advanced programming of this type in the world, controlled by the Rothschilds, Rockefeller's, Warburgs, Bushes, etc.
