Actually most ETs are just in the dark about what is going on than humans are.

Their royals treat them the same way.

Good E.T.s so far have not allowed the evil E.T.s to take control of Earth.

#### Re: E.T.s will tell us the truth

If you were a tribal warrior in Africa...

... and one day 100 Europeans and Americans from 15 different countries all came up, asked to share some land, offered some gifts, and told you "how to world worked"...

How should you negotiate this situation?

The point is... there is a broad spectrum of ETs out there. Some are very helpful, some are duplicitous. Just like humans. lots of factions.

#### What has happened on Earth has changed their society.

Their hive-minds are rebelling and restructuring because of what they've seen in many EArth Truman Shows.

~O~

#### You know the Reality Show Big Brother?

Imagine a version of Big Brother started in Summer 2020, when COVID was in full swing.

20 contestants.

*Imagine if 10 of those contestants were GLPers.*

Imagine the Big Brother reality Show went on for 2 years. The GLPers and other contestants were oblivious to the outside world, under Big Brother rules.

But as the housemates sat there arguing vaccines, government, software, bloodlines, illuminati... everything... for two solid years.

... lots of people started watching. What started out as light entertainment, actually got a lot more real, usurpous and dark.

Imagine if large numbers of people started ditching vaccines cos the GLPers in the household were informed enough to win a few debates. What if everyone started googling the bloodline Families?

What if the producers tried to edit out the heavy stuff... but people kept watching the uncensored conversations on the raw live feed...?

~O~

There would be **large scale change** in the world beyond the house, and the housemates wouldn't even know.

Then..

What if the housemates started \*building things\*... brainstorming software... giving out ideas for apps and new finance networks.

Just brainstorming over beers. Didn't realize the impact their conversations were having.

Maybe they would build a more efficient stove, or governance system, or microfinance app.

What if, from the half-baked experiments in the house...

Coders and engineers in the outside world started copying and building on the ideas brainstormed by the housemates.

What if some loser with a mandolin ends up one of the most popular livestreamers in Orion?

That... I hear... is only half of what has gone on in the Earth Truman Shows...

The Anomalies.

PLURAL.

Have caused large scale change in the outside world.

I believe you said 90% of Orion and Sirius people lived badly.

Or words to that effect.
