Did you know that I make the SUN emanate VIOLET RAYS (not ultra-violet, **actual violet**. It used to be **purple like this**. But now it is **actually this violet**. I call it "lilac" now.) with my "mere" thoughts??

**HOW CAN IT BE??**

On my website I ask people how the scientists say it allegedly takes 8 minutes for the SUN'S LIGHT to reach Earth, **YET** I make it change its rays in **waaaay LESS** than this?? (About 2-3 min MAX **as the photos SHOW!**)

To check them out just google my nickname!
