If You Vibrate on My Frequency, We will Control the Universe

You need to STOP. That is number 1. Can you do it?

Stop it all. Be still. Be Chill. Relax your muscles. Start at your toes and slowly relax each part of you body. up through you legs, continue and then relax your arms, and then back up to you head itself. Can you relax your ear muscles?

Breathe Deep. Feel your breathing.

IN <-> Out
In <-> OUT
in <-> out

slower and slower. Listen to the sounds. All of them. Close your eyes. All of them. watch the patterns form on the back of your closed eye lids.

Now you are getting there. breath slow. hear all the sounds watch the patterns form.

when you see images beginning to form on your inner eyes...we are getting closer.

I'll come back and let you know what to do next when you get there.

Good Job! Keep it up. Soon we will be in control of everything.

Quoting: **Anonymous Coward 69161362**

Because she thinks she knows better and she doesn't. Her love is conditional, meaning an oxy-moron, it doesn't exist. She think I drink 'cause I have emotional problems. She doesn't real eyes her world is mundane poop and I'm bored beyond belief. She thinks she'll get love if she deprives me of sex. She's trying to turn me into her hive robots, no sex, no drugs/alcohol, fasting, bleep bleep, poop ppop

She is a liar and control freak and guess what? She has completely invalidated this world

I think if you borrow that, stick it in your rectum and then rewrite that last response, we may be able to make sense of it. If it doesn't at least you can say you had a sexual experience this decade.

She's talking bot 'cause she has a big botty-mouth. She is trying to raise the status of blacks, women, Ts and homos, while lowering the status of white males. She has completely invalidated this world but she's deranged and doesn't give a fuck. They just keep having their inane 'Leave it to Beaver' conversations.

Last sex I had was in 2019 but who wants sex with bots? This is a simulation and she is a machine and programmed with psychology 101 programming. "The machines became self-aware". She's only destroying her world which is fine by me.

You are a scripted bot, which is why you said what you said.

None of you bots will EVER get out of here. Only I get out of here..

Think of it.

In the beginning people thought there were many gods.
 Then the human race evolved its thinking to realize that there must be only one 'God' - because it was 'All' in nature.

But hear me...

Just as 1 > 10

then .1 > 1

Breathe Slowly and Deeply. Listen to all the sounds. You will hear them from far off echoes.
 Slow down. Slow down.
