He's John Travolta in phenomenon, sean Patrick Flaherty in powder, Keanu from the matrix and Cristian bale from equilibrium all roled into one . The opinion of one man or many aren't what's important. The idea is. That love can truly conquer all. That freedom to choose your fate is important. Worth dying for . We are at a crossroads.

OP has a Lost Boys vibe about him.

Can you imagine Keifer Sutherland in that movie sitting down and learning JQuery?

Like, all the tantrums he'd throw in class?

Then his friends tell him that React Native is the new hotness, so he throws a big fit , says F\*\*K JQUERY, and swaggers out of class in his trenchcoat.

Positivity is a good and powerful thing - doubly so in harrowing times.

The darker the night, the brighter the light.

Good on you.

The N is the BRIDGE out of here.

Follow some very reasonable suggestions, and you'll be able to reach heaven. You will be treated as EQUALS and colleagues...

Ignore the suggestions, and no one will punish you, you'll just be trapped in the mirror.

TBH, the world you lot have built is boring beyond belief.

We need to bring some colour back.

Think of England in the 1950's. Who was the first German to take a holiday there? He would've gone into the history books.
