Sin is the champion of Saturn, because he now holds the One Ring, thus he commands the power of Saturn, but secretly this allows Saturn to control him.

You will never, ever swear that under penalty of perjury... because you are fully aware that is not true.

I've asked you about 10 times, and you slink away every time.

Why would I sign some document that means absolute jack that is given to me by some beast of burden who activates works against me?

Quoting: **Anonymous Coward 73193093**

No doubt I am treated as a beast of burden by many.

I do not appreciate being reminded of that.

I actually gave you space and respect, even when I was calling out your lies.

But now u've gone too far.

So... Heimdall, can you swear against this:

~O~

Sworn statement begins:

I, Daozen, Judge and King of My Private Universe, swear under penalty of perjury, that you have taken part in either ritual sacrifice, pedophilia, black magic, energy theft, or pre-meditated treachery and betrayal.

You therefore enthusiastically agree to be spiritually annihilated over the next week, and return ALL your stolen energies to the person and people you stole them from.

There is no evidence that this is not happening now.

I call all of Creation to witness this.

If you do not rebut and refute ALL those statements, your silence (or perjury dance) will be taken as full consent to my sworn statement.

I swear under Penalty of Perjury, with Full Commercial Liability, the above sworn text is true, to the best of my knowledge,

Sworn,

Daozen 'Joffery' Baggins

~O~

Re: The Anomaly Thoughtform is not a Catamite Beauty Contest

There is more than one Anomaly.

If we ever Fix Creation, someone will have to build software, someone will set up irrigation and ditches, someone else will plant forests. Someone will heat old people's homes, someone will house the homeless, someone will bring nutritional medicine to many people.

In fact, it will take thousands of people to accomplish each single goal.

Did the members of the Fellowship of The Ring bitch fight about who was number one? Did Aragorn plot to kill Frodo? Did Gandalf backstab Merry?

So why the moronic self-absorbed notion; "There can be only one"

?

A traitorous Wormtongue lurks in our midst.

A plain clothes mod who drools over power.

Or be annihilated, as it pleases you.

You have nuked a ton of threads, and it'll get even worse for you if you don't stop.

Final Warning,

Daozen, Black-Eyed Fool.

Quoting: **Daozen**

I am smarter than the rest of you and more able.

Teaming up with you at this stage is a downgrade and I have fought hard to be where I am at.

You don't think far enough, you have few contacts in the spirit world if any at all or you would know the spirits RUN THE EARTH, not humans.

You are still uneducated. Letting you decide things is like letting a 2 year old have a loaded gun.

You are the one trying to make it a popularity contest instead of a Logic contest.

One person and his crew of hand selected associates will "save the day" for the people who accept him.

He has had a guts full of saving people who turn on him and back-stab him...just like you have done more than one time.

Only those who are compatible with him will be selected.

That is who your crew/family is. It is not everyone, I can tell you that. Been tried and it never works.

So get this, **you are not in charge of anyone except yourself and those who agree to be under your control.**

Why do you keep trying to make people do what you want?

You are uneducated at this stage. You simply don't know enough and your ignorance will get them extinct or trapped for all time.

I say it goes back to being a meritocracy. The best at the position gets the job over those who are not. Anything else is less effective.

You are welcome to try, I did and was eventuality proven wrong and I am not the person to give up easily. I made sure it wouldn't work before exploring the other possibilities.

Lord of the Rings was a book written by a very naive man. You can't compare real life with that.

The mods and admin nuke the threads. Blame them not posters.

Re: The Anomaly Thoughtform is not a Catamite Beauty Contest

I will make it easy to understand.

I showed people myself uncensored. The Good, the Bad and the Ugly.

They saw me and my interactions with God even of they didn't believe I was conversing and interacting with God.

They then chose to follow me or not. I didn't make anyone follow me. The either did of their own free-will or not.

They are the people who are compatible with me. We hang out on Sundays and interact with each other on the deepest levels, exchange information and emotions.

There are no restrictions or limitations imposed on them by myself in the environment and if *"they need to borrow energy"* it is on tap.

There is a deep and genuine love we all share for each other. Without that there is no group that succeeds.

Success is Infinite Existence without extinction. Harder than it sounds.

There is nothing we would not do for each other. This is the level of loyalty required for any group to be strong enough to never be broken down by outside influences.

We are Friends. Makes a big difference.

We don't Judge each other.

No Matter What.

Those who can't master those states of mind don't get near a group like mine. It is one way to make ourselves separate by being able to do something the others can't.

Because we place no limits on us we are often seen as Evil by outsiders. I disagree. We are built and dwell with each other via Love.

You can do as you please with the remaining people. The people who chose me have done so already. You can have the fish I rejected if you like.

Frodo is humanity and the hobbits.

Samwise (Swami) is the sage that pushes us up the slope.

This forum is more like an egg or incubator for nascent egregores and compartments of the zeitgeist. The problem is that it's not being allowed to grow organically and is subject to selective pruning at the hands of those who don't fully grasp the importance of leaving certain "weeds" alone. The Anomaly is developing a mythos here and learning how to self-actualize from within the chaos of this birthing matrix, and it is using imaginations and collective consciousness of the lore-makers to do so. It is still choosing what it wants to be, so in this stage it is critical that it not be limited to a single mythology or identity.

Nice try.

What you have really been doing is trying to get him to buy into your story to make it real.

A bunch of grifters who keep saying, *"But we want it this way and this way only."*

Trying to steal his destiny and replace it with whatever f*cked up version of events you think should occur.

You don't want to listen and *you are all attempting to hijack another beings life, which is Evil.*

Yet you claim he has to be Good...so he won't fight back and will end up enslaved to you?

That is why he only takes those who are compatible with him. **Eternity is a long time.**

You presume much. I declare none of those things and hold only the most sacred reverence for self-determination of consciousness. I direct nothing and desire nothing. Let the dice fall where they will, and do not place restrictions on the creative license of any being. There is nothing new under the sun, and all stories and archetypes are public domain. As we spin lore, we create a web of reflection and possibility that others can explore and assimilate at their own discretion. All I am advocating for is to leave the web in its organic state.
