Re: Is there a large Alien Base in Edmonton, Canada?

After some ketamine one night, I went to the starlight room and had a bad trip, swear everyone there was an alien, handed my coat check stub over to an alien, took my jacket and left. Never did K again. Done many things and this was my first and only trip ever involving aliens.

In the early 1950s, Sudbury was at the centre of flying saucer activity because of the nickel mines, according to Charles Beck, an American investigator of supernatural phenomena.

In 1954, the daily newspaper reported Beck, a pastor from Buffalo, N.Y., was in the area to investigate the "landing of a Martian spaceship on the Garson Mine property."

The newspaper story said Best interviewed a 23-year-old miner who had passed out at the mine's first aid station after witnessing and being hypnotized by creatures from outer space, possibly Mars.

The Garson miner had told the newspaper in June 1954 that a spaceship moving "20 times faster " than a jet, hovered like a helicopter about 25 feet from the ground before descending.

Three "creatures" left the ship, and one delivered a message to the miner by mental telepathy, he said.

"I would rather be dead than relay the message," he said. "It was horrible."

Best told the newspaper the Martians are interested in "atomic energy and any kind of mines."

"There are many saucer people here now. ... They are walking your streets, mingling with your people. ... They know every word between your officials."

Best said he believed there was life on all the planets.

"The creatures of the cosmos are being disturbed by atomic activity on Earth," he said.

The Sudbury "incident" was preceded by sightings in the North Bay and Sturgeon Falls areas in 1951 and 1952.

Twenty years later, in November 1975, NORAD released a news release regarding another UFO incident that occurred at Canadian Forces Station Falconbridge, a radar installation in Valley East operated by the Canadian military from 1952 to 1985.

"The object was tracked on radar from the base and sighted in binoculars, and an estimated 100-foot diameter sphere. Seven OPP police officers witnessed the UFO.

"Reports of strange lights were called into police headquarters by people as far away as Sudbury. The lights were low in the sky but suddenly shot straight up."

There were numerous other UFO sightings around the world in November 1975.

A survey found 1,101 sightings were reported across the country in 2017 at a rate of roughly three per day — the fifth highest number since 1989.

The survey also showed there was an average of two witnesses per UFO sighting and that the sightings lasted about 15 minutes each. Many witnesses were police officers, pilots and other people assumed to have keen observational skills. Most sighting reports in 2017 came from Quebec (518) and Ontario (241).

Recently the American government launched the Unidentified Aerial Phenomena Task Force within the Office of Naval Intelligence to "standardize collection and reporting" of sightings of unidentified aerial phenomena (UAP) or UFOS.

Some of the aliens underground are actually demons. They feed on emotional energy source. They have been locked away since Anceint Era wars. Everyone is going to lose if they continue to play god against the real god.

The Starlite Room is AMAZING. I Loved going to that venue, Its still around, Though I haven't been to a bar or a music show since I was in my late 20's, Now I am almost Late 30's. Lol. Time flies so fast, its such a blessing sometimes, To be able to slow it down however, is another thing.

I have had significant events in Edmonton, Pull up a map of the City and look at the Circle around the city. You'll notice that the Highways go through the Circle as a perfect Jesus Cross would. I happen to reside directly in the middle of the circle in a family house that we've owned since 1910, Indirectly and Directly. I like to think of this as my Afterlife, and this is my City, It is a representation of me being tied to a Cross, in all of my relations.

The UFO Event and sighting here in 2005 was remarkable, I have lived in this town since I was about 5 years of age. It is one of the most affordable cities in Canada with the best music scene, as someone pointed out above.

There was also the Fast supernova or star transitioning into a Black Hole which I witnessed with a friend a few years prior to the UFO sighting. I think there is base because there is major military bases here as well as what is called "Christ Street" it is 96 Street the same street which I live on. (It has the worlds most number of churches in a small radius).

That is all for now.
