### [The One Powerful Habit of Steve Jobs, Muhammad Ali and Nikola Tesla](#)

Steve Jobs and Muhammad Ali have reputations that precede them. Jobs co-founded and presided over Apple for decades before his passing, a company that is now worth \$1 trillion dollars, over 5% of the GDP of the United States. Ali was a world champion heavyweight boxer when the sport was in its heyday. Nikola, for his part, pioneered breakthroughs in the production, transmission, and application of electric power. Tesla, the famous electric car brand named in his honor, is valued at more than \$100 billion dollars.

What do these titans share in common besides the extreme wealth and celebrity they acquired during their lifetime? A peculiar habit known as semen retention. For those unfamiliar with the term, retention refers to the conscious decision of a man not to climax. It is based on the belief that climax releases powerful energy that can otherwise be rechanneled in other areas of life. Steve Jobs' ex-girlfriend Chrisann Brennan had this to say about his peculiar habit.

"Our birth control method up to that point was Steve's coitus interruptus, also called the pull-out method, which for him was about his conserving his energy for work." She added he didn't want to climax to build "power and wealth by conserving [his] vital energies."

In Muhammad Ali's autobiography The Greatest: My Own Story, he narrates a quote from Olympic boxing coach Harry Wiley.

There's a kid just come down here named Cassius Clay. If you bet on him every time he fights, you'll be a rich man, 'cause he won't lose a single fight. I believe his thing is sexual control. And he's got it. . . Any kid who can control [it] can with the title. I believe it.

Christ Oil, Chrism, Holy Oil, Sacred Secretion are a few names that I'm aware of.

I'm sure it's referred to differently in the East.

I have come into contact with some Taoist material which speaks of the same process.

**Re: The One Powerful Habit of Steve Jobs, Muhammad Ali and Nikola Tesla**

Steve Jobbs had a thing for Neem Karoli Baba, a somewhat well known Guru from India. This is the Guru of Ram Dass, a somewhat popularized author/speaker from the west.

**Re: The One Powerful Habit of Steve Jobs, Muhammad Ali and Nikola Tesla**

When one properly preserves their seed, one's power increases many times over. One's sexual ability also can go through the roof.

Authentic "Seminary Schools" of old taught this "lost practice".

It's part of the demoralization and locking down of humanities upper energy centers (occulting this knowledge)

Tesla was also into the plant diet for optimal mental performance. People can hate all they want though such haters would be amazed if they actually cultivated the discipline/will to embark upon a 14 day water fast.

Quoting: **BRIEF**

	<p>7 day water fasts can be transformative beyond belief.</p> <p>Often folks will quit early due to "needing" to be a part of society.</p> <p>One can feel like one is floating a few inches off the ground when one gets over "the hump", which is often days two three and four.</p> <p>Some are so toxic the "healing crisis" that inevitably arises will cause one to stop early, which is too bad. To those that persevere through the hurdles theirs is profit in high quantity.</p>

Quoting: **Anonymous Coward 80397763**

It comes out for pro-creation.

Beyond that, it is retained by those seeking longevity, optimal mental/physical performance, and to achieve the deepest states of Gnosis/Atonement with God.

People can laugh, call it bullshit, or hate all they want. These same individuals would know beyond a shadow of a doubt of the power of retention/preservation if they engaged in purification of mind/body/spirit through the various methodologies proven effective throughout time.

Lol?

Tesla was not the only one.

Pythagoras, St. Anthony of Egypt, Gandhi, Tolstoy, Kellog, Blake, Voltaire were a few other vegetarian/vegans.

Personally, I'm beyond the point of feeling as if there is any sort of "superiority" in refraining from consuming flesh. I do however find it astonishing that our society continues to engage in mass torture of other sentient beings on a daily basis. This, to me, is commentary on where we are evolutionarily speaking. Pythagoras himself spoke on this matter deeply, as have other beings far greater than I.

So, laugh all you want. I'm certainly not laughing about this particular thread. It's important to those seeking development/expanse/evolution of Soul.

I recall reading about that in "Think and Grow Rich," where Napoleon Hill called it "sexual transmutation."

The theory is that unexpended sexual energy can be channeled into creative endeavors.
