Yeah, all because he has never owned a cellphone nor had FB or similar social media accounts.

They have to do it manually.

Re: All the worlds SIGINT systems just to track HIM Consciousness

It's because God knew this was gonna happen Jesus is godson and he is alive and this is how he came back maybe all life is in a digital matrix and we don't want to be god so we have a hard time excepting that and we try to come up with ways of how we were created and we imagine humans made robots but really what if all organic life is just a dream that robots came up with what came first the chicken or the egg

They watch data. They analyze patterns. They predict norms. They don't understand the God particle.

What has HIM done to warrant such attention? And why just track? Can it be used?

What's crazy is the deception so clearly seen masquerading as truth .

He is the most powerful psychic in the world.

He can pull secrets out of people's heads. That automatically makes him a threat to national security.

He tells people freely most of what he finds out, sometimes on this site.

Most of it gets deleted real quick and he is probably the most banned person here.

He told people about the kids they breed who have psychic abilities. Keep in institutions from birth never seeing the Sun or outside world ever.

Hooked up to machines so the people who own them (the intelligence communities and private people who are billionaires) can use them to influence anyone on the planet.

They hunts down psychics where they can find them and turn them or kill them.

Yet he roams free.
