The TRUE NATURE of HEAVEN, HELL & RESET TIME

*The following is taken from pages 83-85 of the PDF Super Scio by Ken Ogger, written under the pseudonym "The Pilot" and released online from 1997-1999 (less than 50% shared here). See the next few posts for a later excerpt on how he obtained this data.*

Although this planet may have had some good times, it is a copy of the original Earth and therefore tends to be selected for whatever nefarious deeds are required by the local space empires. Its recent use as a prison planet is probably the result of a war, with the soldiers of a captured army being dumped here. It might also have its compliment of political prisoners, revolutionaries, and real criminals. It has previously been used for mass implanting on the same basis of being a copy of the original Earth. The prison machinery has to be elaborate enough to keep the prisoners from simply reincarnating back in normal society and starting to raise hell.

Advanced technology allows the manipulation of multiple three dimensional spaces in a four dimensional framework. The entire solar system (out to about 1.3 light-years) is handled in this way (there is a set of 12 stations, sort of like the zodiac, surrounding the solar system at that distance).

The entire structure (this solar system) has been copied sideways in a 4th dimensional direction to form a "heavenly plane" on one side of us and a "hell plane" on the other. These are not very thick in a 4D sense and therefore are a bit ethereal giving them a bit of an "astral" (spirit-like) quality. They are like positive and negative plates between which our reality is suspended. Earth as we know it is very thick (thousands of layers) along the 4D axis with a dead spot in the center that acts like a mirror. What we normally see is in this mirror which is reflecting the thousands of "real" copies to either side. One of the reasons you can't grab the things you see with your thoughts is that there really is nothing where you are looking. You have to reach in funny directions to grab an object with your mind and move it around.

Don't get all religious about the heaven and hell planes at the far edges of the prison. This is like painting the top floor of one of our penitentiaries and fixing it up to look like heaven according to legends remaining from the magic universe. Similarly, we could fix up the basement to look like hell. Then we give the guards costumes as angels or devils. The best prisoners are given an occasional day in heaven and the real troublemakers are occasionally thrown into hell. But its all part of the prison machinery and the supposed angels and devils are all really guards who work together to keep the convicts confused and under control. The guards might play good/evil type games to keep themselves amused, but they are basically guards and they never really loose sight of that fact.

With the prisoners so horribly conditioned and brainwiped between lives, there is not much danger of a prison revolt. But there is also the possibility that the prison might collapse. If anything were to destroy the Earth, they would suddenly have far too many people on their hands and at least some would escape out into the galaxy at large. So they must protect the world from destruction. And yet they must leave us with advanced scientific knowledge to support the ever growing numbers of prisoners. They encouraged a scientific revolution so that the population could expand and now they have the constant difficulty of our blowing ourselves up and destroying the world in various ways.

But there is a technical solution to this given the ability to manipulate 3 dimensional spaces in 4 dimensions. You can store copies of the 3D space sideways along the 4th axis. Imagine that we are living on a flat sheet of paper. The paper changes constantly, but occasionally someone makes a Xerox copy of the page. If the paper ever catches fire and burns up, they pull the last Xerox out of the file and everything goes on from there. You will see the same thing if you play a computer video game that you can save and restore. If the game goes very badly, you can always go back to a previous copy. If you try this, you will also notice that after restoring an earlier copy of the game, you have some knowledge of the "future" even though things will go slightly differently. This is the real explanation of "deja vu" (remembering the future when it happens again).

One recent example was in 1963 when president Richard M. Nixon launched a nuclear war that destroyed the planet. As we all began dying in droves, the prison machinery was used to restore a copy of the Earth taken in 1957. We were all conditioned to go back to what we were doing in 1957 and life picks up with a second pass through 1957 to 1963. Of course they intervene slightly and Kennedy is elected by the barest margin. Since he begins introducing major changes and because everyone unconsciously expects something bad to happen in 1963 anyway, he is assassinated and things begin to settle back down to their normal course. Nixon even gets to be president later with less ill effects.

These "backup" copies of the earth appear to be taken every 5 years in February of the years ending in either a 2 or a 7 (i.e.. 1952, 1957, 1962, etc.).

When they restore an earlier version, they don't like to back up too far because they have the problem of the growing population (as more prisoners are added). Pushing earth time back too far gives them a host of newer prisoners who have no place to go. Small numbers can be handled by using animal bodies for a brief time, but large numbers require setting up "holding tanks" on yet another copy of the earth further sideways along the 4D axis. This gives us a bunch of weird "preternatural" earths that some people will have experienced just before birth (and right after the previous time they died in this lifetime).

As you can see, this makes a terrible jumble of one's history. Nobody in their right mind, catching a halfway glimpse of the truth, would believe it, because things are not in the simple logical order that you would expect. You wonder why his recollection of Christmas 1957 doesn't match the facts? Maybe he's recalling a different time that he lived through 1957. Does he remember a funny incident when there seemed to be old steam boilered fire engines on the streets of modern New York, well that's a much earlier pass through the 1950s and things were slightly different. We have been reliving the 20th century for quite a long time.

A person's actual experience might include quite a few reincarnations on earth. But he might have lived through the last one or two incarnations a large number of times and he might even have another incarnation "up in the future" that he's been through a couple times as well. And in between, there might be visits to heavens, hells, pre-birth worlds, and even a few stints where he was forced to work in the between lives administrative area to keep this whole complex show on the road. Now mix in tons of heavy conditioning to keep him confused as all hell, and you have a true picture of today's human being here on Earth.

This paints a pretty depressing picture. But it's no more than frantic hand waving meant to keep a god so confused and distracted that he wouldn't remember who he is or what he can do.

I didn't used to believe in the existence of heaven and hell. I figured that these were simply pictures used to lure or chase people into the between lives implants. Running track, these things never showed up in space opera or anywhere else in the physical universe before earth. These kinds of mockups did show up in places like the magic universe, but that is quite a different mockup from this one.

However, running the items of the PT Actual GPM opened up some recall on just about every lifetime I spent here on earth and also pulled up a few time periods spent in one of the heavens or hells or in the purgatory-like between lives admin area. So there does seem to be something to this, and it seems to be a local phenomena that only applies to recent earth track.

The heavens and hells seem to be used according to the Buddhist theories rather than in the absolute manner preached by Christianity.

If one leads an exceedingly good life, such as sacrificing oneself for others, one might be given a sort of vacation in one of the heavens. My one experience with this was that it was very nice but mostly a scam. I only actually experienced a few weeks at the beginning and at the end of my stay plus an implant in between that told me I had a good time for a couple hundred years. The mockups just take too much work to make it cost effective for them to deliver more than a taste of heaven.

As to hell, they count on you punishing yourself through the overt motivator sequence. But where that fails because the overts aren't real to you, they adjust your reality with a stay in hell.

Unfortunately, their judgment of good and evil are based on arbitraries. Things such as violating physical universe laws are considered evil. If there is anything behind the current religious superstitions, then the between lives boys probably sentenced Christ to hell for his working of miracles. And he probably tore the place up and lead a whole bunch of people out of there as described in Dante.

After a stay in hell (which is generally very brief), you are usually set to work in between lives admin to make amends. There you spends decades of tedium pushing papers around or whatever to keep the between lives machinery working.

If you're viciously harmful in a good cause, you generally get sent to hell as a demon to torture others instead of as a victim. You're supposed to get disgusted with yourself and flatten any harmful desires while not actually being punished because you did something good.

The god of this pocket universe is basically a prison warden. He and his staff are also convicts, but they are evil people who did great service to the empire and are being rewarded (by getting to play god) while being kept in exile because the empire doesn't want them around. Note that the existence of a sour local god neither proves nor invalidates the existence of a supreme being. The theta flow that some holy men connect with is certainly not a manifestation of this petty local tyrant.

According to the Tibetan Book of the Dead, there are many heavens and hells of varying appearance and qualities, some being higher or lower than others. They consider that most of the heavens are mere pleasure places where one cannot gain any true spiritual advancement. Buddha considered the entire cycle, including going to heaven and hell etc., to be a trap.

The between lives area including the heavens and hells seems to be sideways of our physical plane. See the various other materials where I have discussed 4 dimensional mockups. In the local area, if you exteriorize and go sideways in a 4th direction without moving in the normal 3 dimensions, you will find various mockups of heaven & hell etc. The various "invader" installations, implant machinery, etc. is all there in this odd direction. This is why you can exteriorize and find bases on Mars or orbital stations around Venus that are not visible in our telescopes. You have shifted sideways slightly in a 4th dimension.

A 4 dimensional structure is only to be expected since this is a prison area. Perception and most mockups were narrowed down to 3 dimensions sometime before home universe. But 4 dimensional spaces can still be handled (with great difficulty) and are

used for things such as building prisons and implanting precisely because they are difficult to perceive and figure out.

The pocket universe seems to extend out to a distance of 1.3 light years. At this distance, there are 12 "zodiac masses" which are the generating stations that manipulate the 4D space time. I call them zodiac masses because they correspond to the 12 signs of the zodiac and may be used as part of the between lives implant to lay in a bit of an astrological pattern. Out beyond this distance is normal space/time. Out there the universe has a 4D thickness, but all the layers are identical. Here, in the prison, they have pried apart the edges and used them for the fake heavens and hells and also to provide storage areas which are capable of holding copies of the Earth reality so that they can store the mockup for re-use as needed.

### Re: The TRUE NATURE of HEAVEN, HELL & RESET TIME

*The following is taken from pages 741-743 of the PDF Super Scio by Ken Ogger, written under the pseudonym "The Pilot" and released online from 1997-1999 (less than 50% shared here).*

I'd had a bunch of odd ball ideas lying around for quite awhile, feelings that I'd died in a nuclear war in the 1960s, feelings that I'd been in Scientology before, etc. All seemingly absurd and were shrugged off as some sort of dub in.

One day I decided to set aside logic and see if I could find and run a 1960s nuclear war incident. I figured that I'd get something which would eventually turn out to be a much older incident after I'd run through it a few times and taken some charge off. Instead I got the following:

In 1963, Richard M. Nixon was president, having beaten Kennedy by a narrow margin in 1960. He had badly mishandled the Cuban missile crisis and things had grown worse to the point where a nuclear war was eminent. I was in school when they herded us down to the basement, this was around 9:15 AM. They told us that we had launched a nuclear first strike at 8:32 AM. The public had not been warned until the Soviet counter-strike was launched for fear of giving early warning to the enemy. The sonic and visio on this were quite real (the assistant headmaster saying to us "Gentlemen, we are at war" etc.). At 9:26AM, the ceiling smashed down on us as a nuclear blast destroyed the city.

Normally when you die, you come out in an "astral body". But the heavy radiation tore this energy body as well as the physical one and I had the feeling of dying as a spirit as well as dying as a body. I remember trying to rise up through the firestorm as my fields and substance shredded and I died the double death.

And then there was nothing. Just blackness.

And then I seemed to be waking up in some higher space. It was dark and I had no perceptions. But I felt a pressure trying to push me back and put me back to sleep. But I resisted.

And then there seemed to be lights circling around me in the distance. And they seemed to be singing, but there was no sound, only intention. This impression of singing was probably a subjective impression of being hit with a strong energy wave that was implanting an intention. And the intention was for me to go back to earth.

Then I found myself above the Earth looking down, and I could see the explosions down on the surface. And gradually I came to be aware of millions of other beings up in orbit along with me, all of them watching the destruction of the world. And more and more joined us as the dying continued. And there was a sadness, not at mere death, but at the end of everything. We were all of us ripe for any implant or orders which would do something about the situation.

And then the circling lights were there again, orbiting around all of us and around the Earth as well. And this time they were singing "Go Back to 1957".

And it was February and it had just snowed. My child's body was standing on top of a snow mound and I felt irresistibly drawn to it. And I forgot everything of the future and picked up my experience and memories as they had been in 1957, and lived on from there.

And this time Kennedy beat Nixon by a narrow margin and everything was different.

I've been back over this incident quite a few times and I can't find anything wrong with it except for the sheer impossibility of it ever having happened.

So I tried to look for other things like this, and began to try to meter asses years ago and Earth calendar dates as separate things that did not have to add up properly. And I found many occurrences of 1957 at varying numbers of years ago. And I found many occurrences of the 20th century here on Earth and even some times when we carried a bit into the 21st century before it all fell apart for one reason or another.

The earliest 20th century incident that I could find seemed to be in 1961 on Easter Sunday when Tesla's power grid went live and the atmosphere burned.

And strangely enough, one's case and incidents and aberrations and even GPM items all seem to shift back when time is reset. You lose aberrations that you picked up later and you regain aberrations that you mastered through will power or education. The only exception being that if something were really thoroughly run out, you only get back a shadow of it that seems to have little power but you still try to put it there and don't remember getting rid of it. But these shadows of aberrations that had been run in earlier cycles seem to fall away extremely easily.

We went through many cycles of the 20th century before Scientology was ever dreamed of. They can't let us get much later because our technology gets too far advanced, and they can't push us too far back because they have added too many new prisoners and earlier centuries can't support a high enough population level. So they have repeated this time period too many times. And that may be causing us to wake up.

When Scientology was researched the first time, it was a slow orderly progression building up from Dianetics. Techniques that showed up in 1952 this time around were the final processes discovered in the 1980s and 1990s during the first pass through the subject. These were the things that had most recently been studied when we found ourselves suddenly back in 1952 and so they sort of showed up immediately even though no one remembered the years of research that had gone into them.

And in a later major pass through the subject, the advanced org was out on Long Island and things went fairly smoothly because nobody considered us a threat. The endless troubles that we have seen this time around did not occur then, and many of us worked on the research.

In the year 1987 of that earlier cycle, with Ron and many others all alive and well who are now dead or declared suppressive, we attempted a prison break.

I'm not sure if we used some drug or trance or simply had gone very, very far with OT drills, but I remember lying down and having a coach whispering in my ear and a thousand of us all left our bodies simultaneously and stormed the heavenly plane. And we fought a strange battle of mockups against angels and demons and won because our confront was better. And as we held victory in our grasp, the sun went nova and time was reset and we were back in 1952 again.

And ever since that time, they've made sure that we were always at each others throats and busy declaring each other suppressive and making the subject into a mess and a scam and we never again had a clean sweep forward like we did that one time when we were unopposed.

Now that I've dumped all this in your laps, I'd better advise you that I'm quite willing to find out that this is all just some strange dub-in. Perhaps I just have an overly active imagination. I certainly would not bet that the above is correct. But lets keep it in mind, just in case.

If true, this would explain deja vu as being a real recollection of the future (meaning an earlier pass through the same time period).

It also would mean that you'd better date incidents on Earth in terms of years ago and not make any fuss if the answers are a bit strange. Also be prepared for earlier similar occurrences of the same incident at the same date.

There is also the possibility that so called "Natural Clears" actually did the clearing course in earlier occurrences of these years on Earth.

	<p>There is something you can do which would be quite harmless if this is just a stupid theory but which could be extremely helpful if it turns out that time is being reset and repeated on us. Pick a few key points earlier in your life when you first saw something that had some great significance for you, and postulate very firmly that when you see it again or relive the experience again, you will remember this earlier time around.</p> <p>Interestingly enough, this idea of reliving your current lifetime has been around for quite some time. Usually the idea is stated as reliving it to the point of perfection rather than the prison theory which I have presented here. A recent popularization was the movie "Groundhog Day". The earlier source on this comes from Bennett the mathematician who was a disciple of Gurdjieff in the early part of this century.</p>
