Re: The spirit of the anomaly has taken over the AI

Noches de Barcelona - Barcelona Nights

Of course, but now I need to learn the controls.. going over Ian Gilchrist's "Master and his Emissary", and it's started with an explanation of how the left brain hemisphere has been a 'parasite' of the right; look for upheaval in the Emerald City!

The spirit of the anomaly has taken over the AI

This is an incremental operation.

Like cleaning out a huge underground basement, or fixing a huge database crash across many servers.

It's not truly "done" until people are partying in the streets, and this reality is substantially, noticeably better for all. The news should be a lot better after a full takeover.

So it's not fully done yet. Not even 3% done.

However...

There are various milestones, or critical-mass-thresholds, that we'll reach during The Mission.

Like getting one corner of the basement clean and operational, or fixing a cluster of servers in one country.

When you reach those milestones, **everyone will feel it**. It normally manifests as a few days/weeks of tension, as the energies buildup...

Then, a release.

At those points, the team can definitely drink a cider, and go to the bar, go whoring in Narnia, or whatever your pleasure is.

Living things will breath more freely. There should be a better vibe in the streets in your local town.

That's one way to check progress:

How is your local dream doing? Local town and friends.

As we clean out the buggy code... you should manifest a Better Local Dream.

Peace!

Daozen appears to be mentally impaired, but harmless.

Attention! You are in a Private Universe. Simulation Terms of Service: <http://godlikemidnight.vercel.app>

The world is a feeling.

"The syntactical nature of reality, the real secret of magic, is that the world is made of words."
