This free speech board is pretty cool

You have to wade through a lot of junk but it always has breaking news and also a good format. Whoever put it together 20 years ago did a good job - it stood the test of time. I'm glad there is no corporate group of busy bodies looking to change it every few years.

Also the Debbie Downer satanists who posted all that weird satanic garbage all day and all night, speaking in code to each other, all seem to have drifted away into oblivion. So that's good.

The banning due to posting key words is out of control -I hope they change that.

Anyway it is a good place to learn new stuff and get different opinions from the non NPC crowd. Always learn something new here.

Cheers to GLP, and here is to 2023 !

It's not free speech, more like \$3.50 speech.

Re: This free speech board is pretty cool

I've enjoyed it, although I still get banned now and then, and I have no idea what I wrote to get banned.

There's a lot of censored words here.

It's the same on other forums, and I've been on many over the years.

THE MOST DELETED VIDEO ON THE INTERNET!!! BECAUSE THIS DOCTOR TOLD THE TRUTH!!!

A man who described himself as "Dr. Sean Brooks, PhD, Oxford," gave a series of incendiary statements about COVID-19 vaccines at an Ohio school board meeting

This free speech board is pretty cool

IN EARLY 2021. Video clips of Brooks talking at the meeting have been shared widely on social media and elsewhere on the internet by anti-vaccine advocates.

He told parents and board members that people who take the vaccine will end up dead and sterile.

All cause mortality has skyrocketed around the world, many countries witnessing nearly a 20% increase leaving doctors 'baffled' of course.

In Europe, statistics provided by EuroMOMO, a European mortality monitoring organization, show that there have been more excess deaths recorded in 2022 than in 2020 and 2021, and that the greatest increase in deaths has occurred in children and young people.

Reddit- I don't like their format.

Also GLP doesn't censor ideas it just built a crude banning tool based on key words which is very annoying. Don't think they have too big of a budget. It's like everything here is built by college interns.

Actually it seems like they spend all their time and energy spying on FB and Twitter users, according to the latest internal emails released by Elon Musk.

Who knew GLP was safer compared to those places. Ha ha. They probably had one lonely agent assigned here this whole time, compared to 80 on twitter alone. And you were all worried. Now that's good stuff right there. Pure Comedy. LOL.
