The most striking thing about the Anomaly is his sadness

He feels the pain of the world and everyone in it.

We live in a dark age where evil rules.

Sometimes it becomes unbearable to handle the reality of everything. His demeanor becomes grim and silent.

He feels helpless because he knows there's only so much he can do.

He has the answers but he can't force people to listen to him.

He has already tried, and he can deliver the message better than anyone else, but it was a fruitless endeavour. All they do is laugh and mock him, or even worse, threaten him.

The masses are too indoctrinated. As time goes on society will continue falling apart and everyone will suffer more and more.

That will lead to some people finally waking up to the hellish reality we're facing.

But that's the thing, people need to do it on their own. Nobody can force them to see it.

So the Anomaly will wait for the day when society is more receptive to his message. He knows things will get a lot worse before that happens though, and it makes him sad.
