**Re: X marks the spot**  
  
the good news is that when we code and load our tools with older languages we get a completely different picture in everything  
so what we do is use older language ai to do everything in and display in english when asked questions

Quoting: **aether**

google says english is rune language and runes arrive around 1850 years ago out of no where  
  
its a history black hole the origin of english  
  
unknown

I pay much attention, but there is much stopping me from so much. Not sure if we are talking about

the same thing. Nothings safe but everything is amazing, but life sucks and I don't want to make it worse. I have an uncertain night ahead of me. I hope I make the right choices tonight and beyond. I'm so scared to have hope anymore. It's hard to describe.
